A MESSAGE FROM

CANADIAN PARENTS FOR FRENCH

Parent engagement matters! Research shows that children whose parents take an active part in their educational and personal growth reap great benefits. As parents, we want to make the best educational choices for our children, providing them with rich learning opportunities to use their newly found knowledge and skills, including their learning of French.

These French Activity Pages were designed in spring 2020, as the global pandemic closed schools and families found themselves guiding their child's learning from home. For many students enrolled in FSL programs access to appealing French resources was limited. The activities introduce vocabulary and language encouraging learning on the theme of home and community, exploring personal interests and skill development.

Today over 2 million youth across Canada benefit from quality French Second Language learning programs in every province and territory. There are so many advantages to learning both of Canada's official languages and there are many ways to embrace learning French in and outside of a school setting. Enjoy watching your children have fun while learning and using French! Contact CPF for support to help them grow into proud bilingual Canadians!
